SUMMARY

Technical project and product operations professional with 4+ years across analytics delivery, product ownership, technical support, data integrations, and customer-facing operations. I make complex data and support operations reliable, usable, and ready to scale through clear priorities, strong documentation, cross-functional ownership, and measurable business outcomes.

WORK EXPERIENCE

Data Analytics Product Owner, Business Intelligence and Integrations

Danone | Jun 2026 - Present

Tools: Jira, Asana, Confluence, SFMC Intelligence, GA4, BigQuery, GTM, APIs, AWS S3

- Own analytics priorities, backlog clarity, stakeholder alignment, reporting support, and cross-functional delivery.
- Translate business needs into product requirements, acceptance context, KPI logic, and data-quality workflows.
- Coordinate discovery, prioritization, QA, release readiness, handoffs, and adoption across business and technical teams.
- Promoted from project management scope into product ownership after six months, coordinating 10+ cross-functional groups.

Lead Data Project Manager, Analytics & Business Intelligence

Danone | Dec 2025 - Jun 2026

Tools: Datorama / SFMC Intelligence, GA4, BigQuery, GTM, Looker Studio, APIs, AWS S3, Jira

- Led analytics delivery across websites, eCommerce, digital marketing, reporting support, and documentation.
- Structured KPI frameworks, tracking requirements, data standards, owners, blockers, and vendor coordination.
- Owned delivery across dashboards, API and spreadsheet pipelines, tagging QA, and retailer data sources.
- Drove root-cause analysis and built centralized KPI, mapping, troubleshooting, and onboarding documentation.

Technical Software Support Engineer L2, Data & Integrations

Databox | Mar 2025 - Dec 2025

Tools: SQL, Postman, BigQuery, MySQL, Redshift, Snowflake, GA4, HubSpot, Zendesk, Intercom

- Delivered upper-tier analytics and BI support for dashboards, connectors, APIs, SQL/database sources, and metric sync issues.
- Debugged API connections, ETL flows, calculated metrics, data discrepancies, and dashboard interpretation.
- Prepared reproducible escalations connecting customers, support, product, and engineering on complex cases.
- Led knowledge sharing and process improvements cited in a dedicated recommendation from the Director of Support.

Business Development Specialist, Sales & Customer Success

Databox | Apr 2024 - Mar 2025

Tools: HubSpot, Intercom, Slack, Zoom, MEDDPIC, BANT, discovery, product education

- Qualified 150+ inbound and outbound leads per month through chat, email, discovery, and product education.
- Scheduled 100+ product demos per month with a 30% demo-to-opportunity conversion rate.
- Influenced \$50K+ in pipeline and contributed to \$50K in closed revenue through high-quality handoffs.
- Connected customer needs with product value, onboarding, support context, and platform adoption.

Senior Technical Support Engineer, NOC (L3)

Walmart | May 2023 - Apr 2024

Tools: ServiceNow, Citrix, Cisco Jabber, PowerShell, Linux, Cisco, Meraki, Juniper, NCR, POS

- Supported Walmart US and Sam's Club US network infrastructure, POS systems, and enterprise hardware.
- Diagnosed network, software, hardware, and connectivity issues across high-pressure retail environments.
- Coordinated dispatch, repair follow-up, ticket quality, documentation, and operational continuity.
- Built the networking and troubleshooting foundation behind later analytics and support operations work.

EDUCATION

ITAcademy by LINKgroup
